Cybernetics Treatment begins in the largest rehabilitation hospital in Bulgaria

~ Bulgaria becomes the 4th countries in Europe with HAL ~

CYBERDYNE, INC. and its group companies (the “Group”) began to offer its HAL for Medical Use Lower Limb Type (“Medical HAL”) in a Bulgarian medical institute SERDIKA Hospital from July 1, 2019.

SERDIKA Hospital

Medical HAL in the Hospital

The hospital is located in the Serdika district of Sofia, the central part in the capital city of Bulgaria. The hospital that is known to be the largest rehabilitation hospital in Bulgaria was founded in 2011. The hospital holds its pride to offer high quality service with latest equipment and best professionals at an affordable price.

Following the introduction of Medical HAL, SERDIKA hospital established a Robotics Recovery Center and started to offer innovative Cybernetic Treatment through Medical HAL to its patient suffering from various diseases and injuries related to the brain-nerve systems such as stroke and spinal cord injury.

The Group will continue to coordinate with SERDIKA Hospital to receive coverage from both public and private insurance of Bulgaria, in order to make Cybernetics Treatment accessible to all patients. The Group will also continue its endeavor to spread Cybernetics Treatment to other countries in Europe.
