**Daido Life announces “HALFIT Service”  
~ new service that will cover up to 3 session of Neuro HALFIT ~**

CYBERDYNE, INC. [Tsukuba, Ibaraki, CEO: Yoshiyuki Sankai (“Cyberdyne”)] announces that Daido Life Insurance Company [Nishi-ku, Osaka, CEO: Minoru Kudo (“Daido Life”)] will start a service, on April 1, 2020, to cover the entire cost of “Neuro HALFIT” provided by Robocare Centers in Japan to policy holders, insured persons and their families who subscribe to Daido Life’s nursing care.

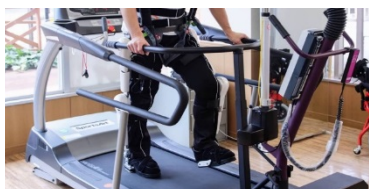

■ **“HALFIT Service”**

HALFIT Service is a new service by Daido Life Insurance to cover the entire cost of 3 “Neuro HALFIT” sessions, a program offered at Robocare Centers to induce improvement of functions in the brain-nerve-musculoskeletal systems. In order to benefit from the HALFIT Service, one must be a policy holder, insured person or a family member of the person who subscribed to Daido Life’s *Kaigo relief* (whole life care insurance) *Kaigo relief alpha* (whole life care insurance) and *Shunyu relief* (nursing care income insurance). One must have a certificate between “Needed Support 1 to Needed Care 2” under the public long-term care insurance system.

■ **“Neuro HALFIT”**

“Wearable Cyborg HAL” is a technology that enables voluntary movement according to the intention of the wearer, even if the wearer is physically disabled or if the wearer has a weakened physical function. Robocare Center integrated the technology in its “Neuro HALFIT” program to induce improvement in function of brain-nerve-musculoskeletal systems. This approach with the cutting-edge technologies allows visitors who no longer feels any improvement through traditional rehab to hope for maintaining or even improving his/her physical functions or need of care. Robocare Center prepares variety of menus according to conditions and needs of each visitor

Menu with HAL Lower Limb Type

Menu with HAL Lumbar Type

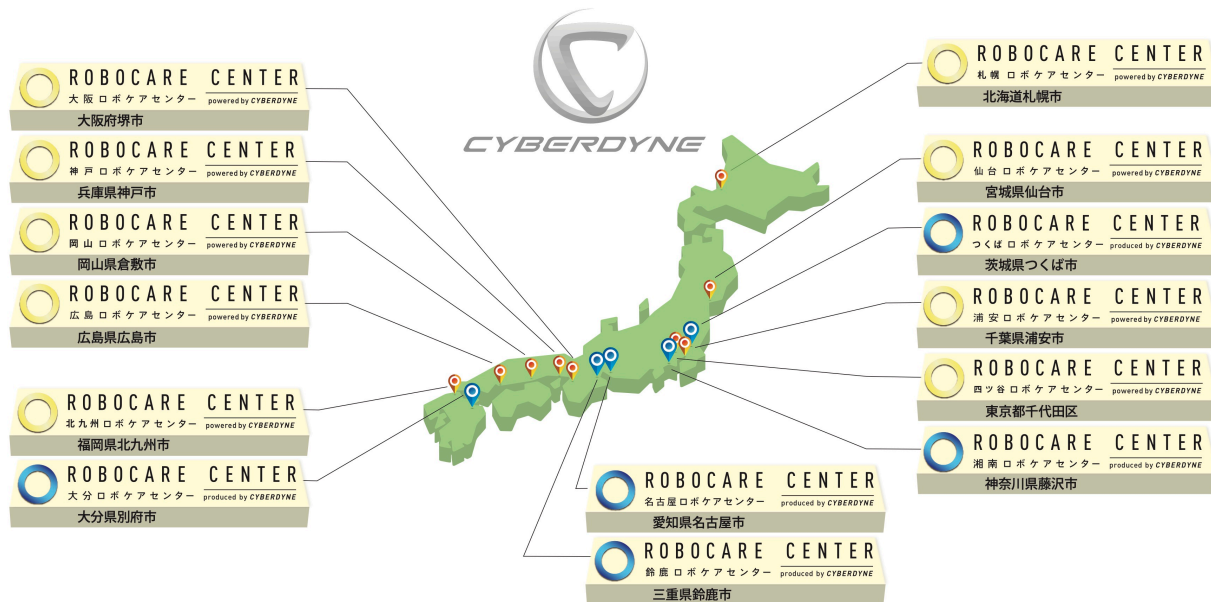

Menu with HAL Single Joint Type

## ■ Facilities where the service can be used

Neuro HALFIT is offered at 14 Robocare Centers around Japan as of March 2020.

For further details, please follow the link below (available in Japanese only)

## ■ Prospects

The two companies will not only prepare for the economic risks through long-term care insurance products in the event that a person has to rely on long-term care, but also realize total support related to care through HALFIT Service, which facilitates the use of Neuro HALFIT program that promotes the improvement in the function of brain-nerves-musculoskeletal systems for subscribers of insurance products by Daido Life. In addition, the two companies will continue to leverage synergies through the collaboration between CYBERDYNE's innovative Cybernics Technology and insurance in a wide range of business fields to promote initiatives aimed at establishing a healthy and longevity society.
