Grand Opening of Cybernics Treatment Center in Taiwan

CYBERDYNE Inc. (Tsukuba, Ibaraki, CEO: Yoshiyuki Sankai, from now on referred to as "the Company") is pleased to announce the grand opening of the Yee Zen General Cybernics Treatment Center at Yee Zen General Hospital, a group hospital under the CHC Healthcare Group ("CHC Group"), a major medical equipment trading group in Taiwan. The center will utilize HAL for Medical Use Lower Limb Type, which was approved as a medical device by the Taiwan Food and Drug Administration (TFDA) Welfare in October 2020.

■About CYBERDYNE

CYBERDYNE Group (the “Group”) aims to realize Society 5.0/5.1, a new vision of society based on Techno-Peer Support. To realize this society, the Group works to create an industry based on innovative Cybernetics Technology capable of fusing “humans” and cyberspace (virtual world)/physical space (real world). The foundation of Cybernetics Technology is the Internet of Humans/Internet of Things (“IoH/IoT”), Robots, and AI. The technology connects various fields such as medicine, nursing-care, production, and other workplaces with households. The Group aims to create a new industry based on this technology to solve various problems that exist in our society today. The Group’s business has a unique advantage in its ability to access and integrate information inside the human body (such as Brain-nerve and vital systems) and information outside the human body (such as behavioral, life, and environmental). The information obtained will be sent to a supercomputer for analysis and AI Processing to discover innovative solutions to social problems. The Group simultaneously works on research and development, business development, and business alliances to establish such a system that could realize the future society of Society 5.0/5.1.
