| Name of listed company | :CYBERDYNE, INC. | Stock exchange listing | :Growth Section of TSE |
| Stock code | :7779 | URL | : https://www.cyberdyne.jp/english |
| Representative (title) | :President and CEO | Name | :Yoshiyuki Sankai |
| Contact (title) | :CFO | Name | :Shinji Uga Tel. +81-29-869-9981 |
| Scheduled date for release of six-month report | :November 14, 2023 | Scheduled start of dividend payment | :— |
| Additional materials for the financial results | :yes | | |
| Information meeting for the financial results | :yes (only for institutional investors) | | |

(Millions of yen: Rounded to the nearest one million yen)

I. Consolidated financial results for the six months ended September 30, 2023 (April 1, 2023-September 30, 2023)

1. Consolidated result of operations (percentages denote year-on-year change)

| | Revenue | | Operating profit (loss) | | Profit (loss) before tax | | Profit (loss) attributable to owners of parent | |
|---------------------|---------|------|-------------------------|---|--------------------------|---|--|---|
| | | % | | % | | % | | % |
| Apr.1-Sep. 30, 2023 | 2,104 | 36.4 | (1,317) | — | (180) | — | (603) | — |
| Apr.1-Sep. 30, 2022 | 1,542 | 86.9 | (442) | — | 373 | — | 268 | — |

| | Basic earnings (loss) per share | Diluted earnings (loss) per share |
|---------------------|---------------------------------|-----------------------------------|
| | Yen | Yen |
| Apr.1-Sep. 30, 2023 | (2.85) | (2.85) |
| Apr.1-Sep. 30, 2022 | 1.25 | 1.25 |

2. Consolidated financial position

| | Total assets | Total equity | Total equity attributable to owners of the parent | Ratio of equity attributable to owners of the parent to total assets |
|----------------------|-----------------|-----------------|---|--|
| | Millions of yen | Millions of yen | Millions of yen | % |
| As of Sep. 30, 2023 | 51,000 | 41,459 | 41,647 | 81.7 |
| As of March 31, 2023 | 50,187 | 41,983 | 42,101 | 83.9 |

II. Dividends

| | Dividend payments for each term and the year | | | | |
|-----------------------------------|--|-----------------------------------|----------------------------------|----------------------------|-------|
| | End of 1st quarter (June.30) | End of 2nd quarter (September.30) | End of 3rd quarter (December.31) | Fiscal year end (March.31) | Total |
| | Yen | Yen | Yen | Yen | Yen |
| Fiscal year ended March 31, 2023 | — | 0.00 | — | 0.00 | 0.00 |
| Fiscal year ending March 31, 2024 | — | 0.00 | | | |

Notes:

- (i) Changes from the latest released dividend forecasts: none
- (ii) The table of “Dividends” indicates dividend payments on Common Shares. Dividends on Class Share (non-listed) for which the number of share units differs from Common Shares are shown below as “Dividends on Class Shares”.

III. Forecast of consolidated financial results for the fiscal year ending March 31, 2024 (April 1, 2023-March 31, 2024)

As the business of CYBERDYNE Inc. and its group companies (collectively referred to as the "Group") is based on a new market with innovative technologies, there are many uncertain factors that could have an impact on its performance and make it difficult for CYBERDYNE Inc. (the "Company") to provide a forecast with accurate figures. As such the Company will not announce the forecast of consolidated financial results.

Notes:

1. Changes in key subsidiaries during the consolidated three month period (changes in specific subsidiaries resulting in changes of consolidation scope): none

new: — (company name: —), excluded: — (company name: —)

2. Changes in accounting policies, accounting estimates, and restatement of error corrections

(i) Changes in accounting policies required by IFRS : yes

(ii) Changes in accounting policies due to reasons other than (i) : none

(iii) Changes in accounting estimates: none

3. Total number of issued shares (Common Shares)

(i) Total number of issued shares at the end of each period (including treasury shares)

| | | | |
|--------------------------|--------------------|----------------------|--------------------|
| As of September 30, 2023 | 215,145,809 shares | As of March 31, 2023 | 215,145,809 shares |
|--------------------------|--------------------|----------------------|--------------------|

(ii) Total number of treasury shares at the end of each period

| | | | |
|--------------------------|------------------|----------------------|------------------|
| As of September 30, 2023 | 4,014,573 shares | As of March 31, 2023 | 4,011,673 shares |
|--------------------------|------------------|----------------------|------------------|

(iii) Average number of shares during each three month period

| | | | |
|--------------------------|--------------------|--------------------------|--------------------|
| Apr.1-September 30, 2023 | 211,131,236 shares | Apr.1-September 30, 2022 | 215,134,138 shares |
|--------------------------|--------------------|--------------------------|--------------------|

Note: Class B Shares are ranked the same as Common Shares and paid the same amount as Common Shares with regard to dividends of surplus and distribution of residual assets. Therefore the total number of issued shares at each end of period and the average number of shares during each period include Class B Shares as Common Shares.

*This quarterly consolidated financial report is not subject to the quarterly review procedure by the scope of audit.

Dividends on Class Shares

Details of dividends on the Company's class shares for which the number of share units differs from its Common Shares are as below.

| | Dividend payments for each term and the year | | | | |
|--------------------------------------|--|---|--|-------------------------------|-------|
| | End of 1st quarter (June.30) | End of 2nd quarter (September.30) | End of 3rd quarter (December.31) | Fiscal year end (March.31) | Total |
| | Yen | Yen | Yen | Yen | Yen |
| Fiscal year ended March 31, 2023 | — | 0.00 | — | 0.00 | 0.00 |
| Fiscal year ending March 31, 2024 | — | 0.00 | | | |

Note:

The Company issued Class B Shares which were accorded the same rights as its Common Shares with regard to dividends and distribution of residual assets, but for which share units differ from Common Shares.

1. Qualitative information regarding settlement of accounts for the six months ended September 30, 2023

(1) Explanation of operating results

All forward-looking statements included in this explanation were determined reasonable by CYBERDYNE Inc. (the “Company”) and its group companies (collectively referred to as the “Group”) based on currently available information for the consolidated six months ended September 30, 2023, and certain assumptions made by the Group.

To solve various issues facing society, the Group will make full use of “Cybernetics” (a new field that integrates and combines human, robot, AI, and information systems) and handle HCPS (Human-Cyber-Physical Space) in a unified manner. Furthermore, through Cybernetics, the Group promotes the realization of “Techno Peer Support” and future development by creating the “Cybernetics Industry,” a new industry that will follow the robotics and IT industries.

The Group defines “Techno Peer Support Society” as a society in which people and technology coexist and mutually support each other, enabling people to maintain and manage their health even in old age and to exercise their long-cultivated abilities to the fullest. A society where people can maintain a high degree of independence and lead a life with a higher degree of freedom, even if their physical condition declines due to disease, accident, aging, or disability. To realize such a society and create a new industry based on Cybernetics, the Group is developing various Cybernetics Technologies that improve, regenerate, expand, and support the wearer’s physical functions.

Status of business operation

<<Business operation around the medical application>>

The Group continues its efforts to disseminate Cybernetic Treatment, a treatment program using Medical HAL systems that aims to induce improvement and regeneration of the functions of the brain, nerves, and muscles into a global standard of treatment.

(Japan)

The Group continues its efforts to disseminate Cybernetics Treatment, a treatment program using Medical HAL. Post-marketing surveillance on the Medical HAL Lower Limb Type Double-leg Model suggested a high efficacy and safety towards progressive neuromuscular diseases, for which no effective treatment methods are available in the medical world yet. Although there was some delay in the installation of Medical HAL due to the effects of COVID-19, as the pandemic is gradually settling down, new installation orders are increasing in the new fiscal year, which started in April 2023.

Regarding spinal cord-related diseases, the Japanese Minister of Health, Labour, and Welfare approved additional indications of HTLV-1-associated myelopathy (HAM) and hereditary spastic paraplegia for HAL on October 2022. A letter of announcement was published on the MHLW website stating the approval of insurance coverage for treating those two diseases using Medical HAL on October 1, 2023. Regarding traumatic spinal cord injuries, the Company is consulting with the regulators on the necessary steps to obtain medical device approvals.

Regarding stroke, the Company discussed the result of the investigator-initiated clinical trial using the Medical HAL Lower Limb Type single-leg model (HIT2016 trial). Considering the practice conditions surrounding acute stroke treatment and recovery rehabilitation, the Company is preparing additional studies (clinical trials) while consulting with the regulator.

In addition, the University of Tsukuba Hospital started clinical trials to investigate the effect of HAL on improving the physical functions of children affected by cerebral palsy in January 2022. The clinical trial is

currently in progress. The Company has also developed a small Medical HAL Lower Limb Type model equivalent to the device used in the clinical trial for cerebral palsy. The Company submitted paperwork to obtain approvals from the PMDA (Pharmaceuticals and Medical Devices Agency) in June 2023 for the same group of patients as the larger size of Medical HAL Lower Limb Type.

(USA)

As a medical service platform for individual users, RISE Healthcare Group (RHG), the Company's subsidiary, is gradually expanding the number of facilities in Southern California. In February 2023, RISE opened its first center in northern California. As of June 30, 2023, RHG operates 28 centers (an increase of 12 centers since the M&A by CYBERDYNE). HAL technology of CYBERDYNE is currently available in 4 locations, and RHG is expanding its official service with HAL to more centers starting from January 2023.

(EMEA: Mainly Europe and the Middle East)

The Group continues to promote Cybernics Treatment in the region. For example, a center that offers Cybernics Treatment commenced in Türkiye. In addition, the Company exported 25 units of HAL to an Italian Social Company, Coopselios, in May 2023. The Company is planning to ship out additional units.

In Germany, the G-BA (German Federal Joint Committee), the public health insurance authority, has announced that it will conduct a clinical trial for spinal cord injury based on public health insurance coverage. As of October 2023, related parties are preparing the trial protocol.

(APAC: Asia Pacific)

CYBERDYNE MALAYSIA Sdn. Bhd. is working to disseminate Cybernics Treatment in a wide area of South East Asia, India, Australia, and Taiwan.

The Group continues to strengthen its partnership with Malaysia's government-affiliated Social Security Organization (SOCSO). The collaboration resulted in increased access for Malaysian patients under the SOCSO coverage, and the treatment is currently offered in eleven facilities through 109 income-generating rental units as of the end of September 2023. Construction of the National Center for Neuro-Robotics and Cybernics, the largest medical complex in Southeast Asia, is scheduled for completion by the end of 2024. The Group expects to install significant numbers of HAL in this center.

<<Business operation around applications to support caregivers and care receivers>>

The Group has developed various types of HAL for seniors to improve their physical function, prevent illness and frailty, and reduce the requirement for care. These include the HAL Lower Limb Type for enhancing the ability to walk, the HAL Single Joint Type to train elbow, knee, and ankle movements, and the HAL Lumbar Type to train the trunk and lower limb function.

(Service at facilities for individuals)

The Group continues to offer Neuro HALFIT, a program that induces improvement of the brain-nerve and musculoskeletal system through utilizing HAL. The program is currently available at 17 Robocare Centers operated by business partners. The Group plans to open additional Robocare Centers.

(Neuro HALFIT at Home as a service towards individuals)

The Group offers Neuro HALFIT at Home as a contactless service to enable individuals to work out at home using HAL. The Group is working with home visiting service providers to promote in-person support, from equipment setup to program implementation at home.

<<Prevention/early detection>>

The Group is preparing for the commercialization of the Cyvis series, an ultra-small size vital sensor designed to manage the risk of arrhythmia and atrial fibrillation and prevent myocardial infarction, and stroke by accumulating, analyzing, and processing various healthcare data such as cardiac activity, brain activity, body temperature, SpO2, and daily activities using its AI system. Cyvis also has an optional feature to measure breathing conditions while sleeping, enabling easy yet highly accurate screening of risks of sleep apnea syndrome. The Company submitted a medical device approval application for its next-generation model, Cyvis 2, on April 2023.

<<Business operation around applications to support caregivers and carereceivers>>

(Well-being)

Since 2021, the Group has been working closely with Hampshire County, England, on using HAL Lumbar Type for Well-being in care facilities. In addition, the Group will coordinate with Hampshire County to use this as a model example to disseminate the technology in other areas of the UK and other European nations.

(Labor Support, Disinfection, and Cleaning)

Regarding the next-generation Cleaning Robot CL02, which uses cutting-edge SLAM technology to achieve high-speed autonomous driving, the Group works with major construction companies with its ability to ride on elevators automatically and connect with cloud systems; the companies are developing this technology as a solution to make building management smarter and reduce management costs. Furthermore, the company is expanding its mobility part as a transportation robot inside the factory.

Status of Research and Development

The Group develops “Acoustic X,” a patented photoacoustic imaging system based on the LED light source method that realizes real-time, high-resolution 3D imaging of blood vessels and blood in the peripheral organs without needing contrast agents. The Group develops this technology as a next-generation medical image diagnosis device. In addition, research is underway at prominent medical institutions and research facilities overseas to create various applications for this technology.

Other research projects of the Group include cloth-type HAL for people with disabilities and seniors that maintain and improve the wearers’ walking ability. The Group is also developing a communication robot, which obtains vital and environmental information while communicating with users to maintain and improve their ADL. A personal mobility robot is also under development to help those who have difficulty walking.

In addition, Cybernics Medical Innovation Base A building in the national strategic zone of Kawasaki City, Japan, is completed. Starting in January 2023, partners in life science, such as regenerative medicine and drug discovery, are moving into the facility. Four companies have moved in, and another two have decided to move in. The Company will gradually continue to pick its partners based on business synergies.

Numbers of operating units

As of the end of September 2023, 450 Medical HAL Lower Limb Type units were operating worldwide, including those used for clinical research. Eighty-seven of those units were used in Japanese hospitals for treatment. In addition, there were 614 units of HAL Single Joint Type, mainly from the increase of products for medical use. A total of 357 units of HAL for Well-being Lower Limb Type and HAL for Living Support Lower Limb Type (older model) were in operation. Furthermore, 1,052 units of HAL Lumbar Type for Well-being were in operation. In addition, there were 396 units of HAL Lumbar Type for Labor Support and 166 units of Cleaning Robots and Transportation Robots.

Due to the abovementioned situation, in the consolidated three months that ended September 30, 2023, the increase of medical service in the US and rental in the EU contributed to the revenue recorded at ¥2,104 million (36.4% increase year on year). In addition, the Group recorded a gross profit of ¥1,144 million (15.7% increase year on year).

The Group recorded research and development expenses at ¥354 million (6.4% increase year on year), mainly due to developing new products at the Company's own cost, clinical research, and consigned research projects. In addition, the Group recorded other selling, general, and administrative expenses at ¥1,523 million (31.0% increase year on year) due to an increase following the M&A in the previous fiscal year.

Other income was recorded at ¥105 million (62.4% increase year on year), mainly from a consigned research project, and other expenses were recorded at ¥689 million (¥1 million in the same quarter of the previous fiscal year), mainly due to posting of impairment losses. As a result, the Group recorded an operating loss of ¥1,317 million (197.8% increase year on year).

The Group recorded a finance income of ¥408 million, mainly due to gains from the valuation difference of investment securities and exchange gain. In addition, the Group recorded gains related to CEJ Fund at ¥785 million and income tax expense at ¥513 million from deferred tax expenses, resulting in the posting of loss attributable to owners of the parent at ¥603 million (profit of ¥268 million in the same quarter of the previous fiscal year).

The Company forms business and capital alliances with various startup companies that develop unique technologies. The Company calculates the fair value of unlisted stocks of such companies using the IFRS 9 Financial Instruments. As a result, during the consolidated six months ended September 30, 2023, The Group recorded ¥155 million in the gain on valuation difference of investments securities as finance income and gains related to CEJ Fund. Furthermore, the Group posted ¥53 million from deferred tax expense associated with this valuation as an income tax expense and reclassified ¥68 million to third-party interest in CEJ Fund. As a result, the impact of calculating the fair value towards the quarterly profit was ¥34 million.

(2) Explanation of financial position

① Assets

For the consolidated six months ended September 30, 2023, assets increased ¥812 million to ¥51,000 million compared to the end of the previous fiscal year. Changes were mainly due to a decrease of ¥1,004 million in other financial assets (current), ¥428 million in goodwill, and ¥190 million in other current assets, partially offset by an increase of ¥1,674 million in other financial assets (non-current) and ¥788 million in cash and cash equivalents.

② Liabilities

For the consolidated six months ended September 30, 2023, liabilities increased ¥1,337 million to ¥9,541 million compared to the end of the previous fiscal year. The changes were mainly due to a decrease of ¥183 million in trade and other payables, partially offset by an increase of ¥1,019 million in contributions to CEJ Fund from third-party investors and ¥534 million in deferred tax liabilities.

③ Equity

For the consolidated six months ended September 30, 2023, equity increased ¥524 million to ¥41,459 million compared to the end of the previous fiscal year. Changes were mainly due to a decrease in retained earnings following the posting of loss attributable to the owners of the parents.

(3) Status of cashflow

For the consolidated six months ended September 30, 2023, cash and cash equivalents increased ¥788 million to ¥8,590 million compared to the end of the previous fiscal year. The main influence factors for the cash flow status within the consolidated six months ended September 30, 2023, are stated below.

(Cash flows from operating activities)

For the consolidated six months ended September 30, 2023, net cash provided by operating activities recorded an outflow of 496 million (outflow of ¥83 million in the consolidated six months of the previous fiscal year). Changes were mainly due to impairment loss posted at ¥660 million, depreciation and amortization posted at ¥324 million, partially offset by a gain related to CEJ Fund recorded at ¥785 million, and finance income recorded at ¥408 million.

(Cash flows from investment activities)

For the consolidated six months ended September 30, 2023, net cash provided by investing activities recorded an inflow of ¥918 million (an outflow of ¥845 million in the consolidated six months of the previous fiscal year). The changes were mainly due to the purchase of investment posted at ¥8,500 million, the purchase of investment securities posted at ¥450 million, and the purchase of property, plant, and equipment posted at ¥104 million, partially offset by the proceeds of redemption of investments posted at ¥9,500 million, and proceeds from the sale of investment securities posted at ¥465 million.

(Cash flows from financing activities)

For the consolidated six months ended September 30, 2023, net cash used in financing activities recorded an inflow of ¥266 million (an inflow of ¥1,311 million in the consolidated six months of the previous fiscal year). The changes were mainly due to distribution and redemption from CEJ Fund into third-party investors posted at ¥320 million, partially offset by the inflow of ¥680 million from contributions to CEJ Fund from third-party investors.

(5) Notes to condensed quarterly consolidated financial statements

(Notes on premise of going concern)

There are no items to report.

(Changes in accounting policy)

Significant accounting policies applied to the condensed consolidated financial statements for the consolidated six months ended September 30, 2023 are the same as those applied to the consolidated financial statements for the fiscal year ended March 31, 2023, with the following exceptions.

The income tax expense for the consolidated six months ended September 30, 2023 has been calculated based on the estimated annual effective income tax rate.

| | IFRSs | Nature of the new standards amendments |
|--------|--------------|---|
| IAS 12 | Income Taxes | Revised clarification of deferred tax accounting for leases and decommissioning obligations |

The effect of applying these accounting standards on the Group's condensed consolidated financial statements is not material.

(Revenue)

Disaggregation of revenue

Details of disaggregation of revenue are set forth below.

| | Six months ended September 30, 2022 | Six months ended September 30, 2023 |
|--|--|--|
| | Millions of yen | Millions of yen |
| Timing of revenue recognition | | |
| Service transferred over time | 820 | 1,087 |
| Asset transferred at a point of time | 83 | 128 |
| Service transferred at a point of time | 639 | 889 |
| Total | 1,542 | 2,104 |

(Note) Since the Group operates under a single segment of business, segment information on revenue is omitted.

Service transferred over time

Service transferred over time includes rental income based on the individual rental contract, maintenance income based on the maintenance contract concerning finance lease income where the Group acts as a lessor of right-of-use asset and subscription fees from the provision and operation of smartphone applications.

The Group recognizes rental income as income generated throughout the rental period after the customer accepts the relevant product by either of the following methods. Pay-per-use model based on times of product usage in the applicable month or base fee model based on the fixed monthly price.

The Group recognizes maintenance income as a performance obligation satisfied over time. Accordingly, the Company records this revenue during this contract period based on the average amount during the period.

The Group recognizes subscription fees for the provision and operation of smartphone applications as service provided through an application over time. The Company records this revenue over time.

Asset transferred at a point of time

The asset transferred at a point of time includes revenue from sales of commodities and products based on the sales contract. The Group mainly determines that performance obligation of sales of commodities and products are satisfied at the point of customer acceptance of the relevant product. Therefore, the Group receives most of the payment within one month from the point of fulfilling the performance obligation. Regarding transaction price, there is no significance in the amount of sales revenue that includes variable consideration. Furthermore, there are no significant financial components in the amount of promised consideration.

Furthermore, if the Group acts as a lessor of right-of-use of its devices such as HAL, the Group classifies the relevant lease as a finance lease. Finance lease income is processed in the same way as cases where the Group acts as a lessor of manufacturer or distributor of sales of goods. The Group determines that performance obligation is satisfied at the point of customer acceptance, and the revenue is recognized at a point of time.

Service transferred at a point of time

Service transferred at a point of time includes revenue from offering Cybernic Treatment and training service at Cybernic Treatment Center and Robocare Centers to end-users (such as patients). In addition, the Company also includes revenue received in return for providing outcomes of consigned research projects in this category.

The Group determines that the performance obligation of Cybernic Treatment and training services are satisfied at the point of completion of such services. Furthermore, the Group determines that the performance obligation of providing outcomes of consigned research projects is satisfied when the customer inspects and accepts the work.
